**You are about to purchase a product that is not simple and may be difficult to understand.**

## What is this product?

- **Type:** The product is a Sub-fund of Best Brands (the Fund), an open-ended umbrella Unit Trust established by Mediolanum International Funds Limited as a UCITS (Undertakings for Collective Investment in Transferable Securities) pursuant to the provisions of the UCITS Regulations and governed by Irish law.
- **Term:** This is an open ended fund with no maturity date. In certain circumstances, as described in the Fund prospectus, the Sub-Fund may be unilaterally terminated following written notice to unitholders subject to compliance with the Fund prospectus and applicable regulation.
- **Objectives:**
  - The Sub-Fund's objective is to achieve long term capital growth.
  - The Sub-Fund invests primarily in global (including emerging markets) equities (listed shares), equity related securities, Money Market instruments (short-term treasuries), commodities (marketable goods such as copper and oil) and fixed income securities (such as bonds issued by companies or governments) directly and/or indirectly (by investing in funds and/or financial derivative instruments (FDIs)).
  - The Manager will primarily select investments which it believes will generate an exposure, to companies, issuers and/or collective investment schemes which in addition to economic and financial objectives, promote environmental, social and/or governance (ESG) factors.
  - The Sub-Fund will seek exposure to investments which, in the Manager's opinion, promote environmental or social characteristics and, while it does not have as its objective a sustainable investment, it will have a minimum proportion component of sustainable investments (i.e., investments in companies which, in the Manager's opinion, contribute to an environmental or social objective provided that such investments do not significantly harm any of those objectives and that the investee companies follow good governance practices). For further information on minimum commitments, please refer to the SFDR Annex appended to the Sub-Fund's Information Card.
  - The fixed income securities invested in may be rated investment grade (by a generally recognised international rating agency), below investment grade or unrated.
  - The Sub-Fund may use FDIs whose performance is linked to that of underlying security(s) or asset class(es). Their use may be for efficient portfolio management, hedging and/or direct investment purposes.
  - The Sub-Fund may enter into securities lending transactions.
  - The Sub-Fund is actively managed (meaning that the Manager has full discretion over the composition of the Sub-Fund's portfolio of assets) and is not managed with reference to any benchmark.
  - The Manager has flexibility to change the Sub-Fund's asset allocation at any time and has discretion to select investments within each asset class.
  - The Sub-Fund is compatible with investors that can bear and/or afford to fully or partially lose the capital invested and are comfortable with no capital guarantee.
  - FDIs are used to remove the impact of exchange rate movement (hedging) which may affect the value of this Class of Unit.
  - Income and gains generated by the unit class will be reinvested. No dividend will be paid.
  - Units can be bought or sold on any business day from the Fund's Administrator. Please refer to the Prospectus and Sub-Fund Information Cards, in the sections titled 'Investment Objectives and Policies' for more detailed information.
- **Intended retail investor:** This investment product has been developed for distribution in Europe and intended for retail investors (including those with a basic knowledge of financial instruments) who can accept the risk noted in the Risk Indicator section.

### How long should I hold it and can I take money out early?

#### Recommended holding period: 7 years

The recommended holding period (RHP) has been calculated in line with the investment strategy of the Sub-Fund and the timeframe in which it is expected that it will be possible to achieve the investment objective of the Sub-Fund. The investor has the right to totally or partially redeem the contract on any valuation day, collecting the redemption value calculated based on the value of the shares of the Sub-Fund on the date the request is received by the Manager, without any redemption fee being applied. We recommend that you hold the investment at least until the end of the recommended holding period in order to fulfil the objectives of this product. This product may not be suitable for investors who plan to redeem their contract before the end of the recommended holding period. The product does not provide any guarantee of return on the expiration of the recommended time horizon, and any redemption before that date may compromise the investment performance. Please refer to the Prospectus for further details.
