The favourable scenario at 10 years occurred for an investment in the product/applicable benchmark between April 2009 and April 2019.

## What happens if Mediolanum International Funds Limited is unable to pay out?

The assets of the Fund are held in safekeeping by its depository. In the event of the Manager's insolvency, the Fund's assets in the safekeeping of the Depository will not be affected. However, in the event of the Depository's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. In such a scenario, there is no investor guarantee scheme and you could lose all of your investment.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and the performance of the product. The amounts shown here are illustrations based on an example investment amount and different investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10.000 is invested.

	If you exit after 1 year	If you exit after 5 years	If you exit after 10 years
<b>Total costs</b>	<b>€ 655</b>	<b>€ 2,415</b>	<b>€ 5,638</b>
<b>Annual cost impact (*)</b>	<b>6.8 %</b>	<b>4.3 % each year</b>	<b>4.0 % each year</b>

(\*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 12.6% before costs and 8.6% after costs.

### Composition of Costs

## How long should I hold it and can I take money out early?

### Recommended holding period: 10 years

The recommended holding period for this Sub-Fund is determined based on the risk of the investment and the characteristics of the contract. The recommended holding period specified above takes into account the investment option featured in the product with the longest holding period. The investor has the right to totally or partially redeem the contract on any valuation day, collecting the redemption value calculated based on the value of the shares of the Sub-Fund on the date the request is received by the Manager, without any redemption fee being applied. We recommend that you hold the investment at least until the end of the recommended holding period in order to fulfil the objectives of this product. This product may not be suitable for investors who plan to redeem their contract before the end of the recommended holding period. The product does not provide any guarantee of return on the expiration of the recommended time horizon, and any redemption before that date may compromise the investment performance. Please refer to the Prospectus for further details.
