Mediolanum International Funds Limited (part of the Mediolanum Banking Group) is the Manager of the Fund.

Objectives and Investment Policy

- The Sub-Fund's objective is to pay regular dividends and achieve medium-long term capital growth.
- The Sub-Fund invests in global (including emerging market) fixed income securities (such as bonds issued by companies or governments), equities (listed shares), equity related securities and commodities (marketable goods such as copper and oil) either directly and/or indirectly (by investing in funds and/or derivatives).
- The Sub-Fund aims to use a risk-parity approach to asset allocation (balancing risk allocation across different asset types) and to maintain a medium level of volatility (a measure of risk in a financial security).
- The Sub-Fund invests in Invesco range funds which are selected following Manager evaluation of: investment team strength, underlying investment process quality, opportunity for future capital growth and ability to pay dividends.
- The fixed income securities invested in may be rated investment grade (by a generally recognised international rating agency), below investment grade or unrated.
- The Sub-Fund may use financial derivative instruments (FDIs) whose performance is linked to that of underlying security(s) or asset class(es). Their use may be for efficient portfolio management, hedging and/or direct Investment purposes.
- The Sub-Fund may enter into securities lending transactions.
- The Sub-Fund is actively managed (meaning that the Manager has full discretion over the composition of the Sub-Fund's portfolio of assets) and is not managed with reference to any benchmark.
- The Manager has flexibility to change the Sub-Fund's asset allocation (% of the portfolio invested in equities/bonds/FDIs etc) at any time and has discretion to select investments within each asset class.
- The Sub-Fund is appropriate for investors with a medium-long term investment horizon.
- The product is compatible with investors that can bear and/or afford to fully or partially lose the capital invested and are comfortable with no capital guarantee.
- Income and gains generated by the LB Class and SB Class of Units will be distributed periodically in the form of a dividend.
- All income and gains generated by the LA Class and SA Class of Units will be reinvested. No dividends will be paid.
- Units can be bought or sold on any business day from the Fund's Administrator.

Please refer to the Prospectus and Sub-Fund Information Cards, in the sections titled 'Investment Objectives and Policies' for more detailed information.

Risk and Reward Profile

- The risk category is based on historical data and may not be a reliable indication for the future.
- It is not guaranteed and may change over time.
- The lowest category does not mean 'risk free' investment.
- The Sub-Fund is classified in the risk category above due to the nature of its investments. The risk level is measured by the volatility of the Sub-Fund's past returns (or from the past returns of a suitable model portfolio if a full 5 year history is unavailable).
- The sub-fund invests in sufficiently liquid markets although, under stressed market conditions, it may only be able to sell assets at a discount.
- Emerging market securities are generally more sensitive to economic and political instability, scarcity of public information, market volatility, and local regulations. Other factors include lower liquidity, higher default risk, restrictions on Investments or transfer of assets, and failed/delayed delivery of securities or payments to the sub-fund.
- The sub-fund may invest in bonds issued by entities whose credit rating may be substantially below investment grade (higher risk that the issuer may be unable to fulfil its commitments). Therefore, it is more sensitive to potential or actual credit rating downgrades and changes in interest rates than higher rated fixed income securities.
- The Sub-Fund may invest in assets which are priced in non-Euro currencies. Therefore, the value of your investment may fall if the Euro rises in value against those currencies.

The following risks are considered material and may not be fully captured by the risk and reward indicator:

A complete description of risks is set out in the Prospectus of the Fund in the section entitled 'Risk Factors'.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it.

These charges reduce the potential growth of your investment.

The entry charge shown is a maximum figure. In some cases you might pay less.

The ongoing charges figure is based on expenses for the year ending 31 December 2021.

This figure may vary from year to year. It excludes:

- Performance Fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another fund.

The maximum Switch Fee payable for each switch is half the Entry Fee applicable to new units.

For more information on charges and in particular the performance fees, please see the Class Information Cards in the Prospectus.

*The Performance Fee figure reflects the actual performance fee charged in 2021.

One-Off charges taken before or after you invest:				
Entry charge	Up to 3.00%			
Exit charge	None			
This is the maximum that might be taken out of your money before it is invested.
