

# KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## Challenge Provident Fund 1 (the "Sub-Fund") is a Sub-Fund of Challenge Funds (the "Fund"). Mediolanum Provident 1 P Class A Units ("PA Class") - ISIN: IE00B1P83Q26

Mediolanum International Funds Limited (part of the Mediolanum Banking Group) is the Manager of the Fund.

### Objectives and Investment Policy

- The Sub-Fund's objective is to achieve long term capital growth.
- The Sub-Fund invests in global equities (listed shares), equity related securities and money market instruments (short term debt instruments).
- The Sub-Fund may use financial derivative instruments (FDIs) whose performance is linked to that of underlying security(s) or asset class(es). Their use may be for efficient portfolio management, hedging and/or direct Investment purposes.
- The Sub-Fund may enter into securities lending transactions.
- The Sub-Fund is actively managed (meaning that the Manager has full discretion over the composition of the Sub-Fund's portfolio of assets) and is not managed with reference to any benchmark.
- The Manager has flexibility to change the Sub-Fund's asset allocation (% of the portfolio invested in equities/money market instruments/ FDIs etc) at any time and has discretion to select investments within each asset class.
- The Sub-Fund is appropriate for investors with a long term investment horizon.
- The product is compatible with investors that can bear and/or afford to fully or partially lose the capital invested and are comfortable with no capital guarantee.
- All income and gains generated by this class of units will be reinvested. No dividends will be paid.
- Units can be bought or sold on any business day from the Fund's Administrator.
- Please refer to the Prospectus and Sub-Fund Information Cards, in the sections titled 'Investment Objectives and Policies' for more detailed information.

### Risk and Reward Profile

- The risk category is based on historical data and may not be a reliable indication for the future.
- It is not guaranteed and may change over time.
- The lowest category does not mean 'risk free' investment.
- The Sub-Fund is classified in the risk category above due to the nature of its investments. The risk level is measured by the volatility of the Sub-Fund's past returns (or from the past returns of a suitable model portfolio if a full 5 year history is unavailable).
- The sub-fund invests in sufficiently liquid markets although, under stressed market conditions, it may only be able to sell assets at a discount.
- Equity prices generally fluctuate more than bonds. The value of equity securities can be affected by many factors including political, economic news, company earnings, corporate events, and market sentiment.
- While bonds tend to be less volatile than equities, higher interest rates (which may be reflective of the underlying health of an economy) result in lower bond prices (and vice versa). Changes to credit risk and/or issuer defaults could also have a significant impact on the performance of fixed income securities.
- The Sub-Fund may invest in assets which are priced in non-Euro currencies. Therefore, the value of your investment may fall if the Euro rises in value against those currencies.

A complete description of risks is set out in the Prospectus of the Fund in the section entitled 'Risk Factors'.

**The following risks are considered material and may not be fully captured by the risk and reward indicator:**
