

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

**Mediolanum Circular Economy Opportunities (the "Sub-Fund")
is a Sub-Fund of Mediolanum Best Brands (the "Fund").**
Mediolanum Circular Economy Opportunities L Hedged Class A Units ("LHA Class") - ISIN: IE000H4P2KR2
Mediolanum International Funds Limited (part of the Mediolanum Banking Group) is the Manager of the Fund.

Objectives and Investment Policy

- The Sub-Fund's objective is to achieve long term capital growth.
- The Sub-Fund invests primarily in global (including emerging market) equities (listed shares) and equity related securities either directly and/or indirectly (by investing in funds and/or derivatives).
- The Sub-Fund will seek to achieve its investment objective by primarily investing in companies which in the opinion of the Manager generate positive social and/or environmental change by contributing to the transition to or advancement of a "circular economy".
- A circular economy aims to minimise waste by taking into account the full life-cycle of materials, products and services and redesigning products and operations to encourage any or all of the following: increased repair, re-use, recycling, redesign and/or product life extension.
- The Sub-Fund may use financial derivative instruments (FDIs) whose performance is linked to that of underlying security(s) or asset class(es). Their use may be for efficient portfolio management, hedging and/or direct investment purposes.
- The Sub-Fund may enter into securities lending transactions.
- The Sub-Fund is actively managed (meaning that the Manager has full discretion over the composition of the Sub-Fund's portfolio of assets) and is not managed with reference to any benchmark.
- The Manager has flexibility to change the Sub-Fund's asset allocation (% of the portfolio invested in equities/FDIs etc) at any time and has discretion to select investments within each asset class.
- The Sub-Fund is appropriate for investors with a long term investment horizon.
- The product is compatible with investors that can bear and/or afford to fully or partially lose the capital invested and are comfortable with no capital guarantee.
- FDIs are used to remove the impact of exchange rate movements (hedging) which may affect the value of this Class of Units.
- All income and gains generated by this class of units will be reinvested. No dividends will be paid.
- Units can be bought or sold on any business day from the Fund's Administrator.
- Please refer to the Prospectus and Sub-Fund Information Cards, in the sections titled 'Investment Objectives and Policies' for more detailed information.

Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- The risk category is based on historical data and may not be a reliable indication for the future.
- It is not guaranteed and may change over time.
- The lowest category does not mean 'risk free' investment.
- The Sub-Fund is classified in the risk category above due to the nature of its investments. The risk level is measured by the volatility of the Sub-Fund's past returns (or from the past returns of a suitable model portfolio if a full 5 year history is unavailable).

The following risks are considered material and may not be fully captured by the risk and reward indicator:

- The sub-fund invests in sufficiently liquid markets although, under stressed market conditions, it may only be able to sell assets at a discount.
- While bonds tend to be less volatile than equities, higher interest rates (which may be reflective of the underlying health of an economy) result in lower bond prices (and vice versa). Changes to credit risk and/or issuer defaults could also have a significant impact on the performance of fixed income securities.
- Equity prices generally fluctuate more than bonds. The value of equity securities can be affected by many factors including political, economic news, company earnings, corporate events, and market sentiment.
- Emerging market securities are generally more sensitive to economic and political instability, scarcity of public information, market volatility, and local regulations. Other factors include lower liquidity, higher default risk, restrictions on investments or transfer of assets, and failed/delayed delivery of securities or payments to the sub-fund.
- The use of derivatives may result in greater fluctuations of the value of the sub-fund. The sub-fund may also be exposed to loss due to the insolvency of any institutions providing safekeeping of assets or acting as counterparty to derivatives.
- The sub-fund considers Environmental, Social, and Governance (ESG) criteria as part of its investment strategy. The use of ESG factors in the selection of assets may limit the investment universe, affecting the diversification of the portfolio relative to a portfolio which does not use such factors. The sub-fund may use discretionary strategies relying on ESG tools and related ESG data to identify financial opportunities, which may result in more variable performance.

A complete description of risks is set out in the Prospectus of the Fund in the section entitled 'Risk Factors'.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it.

These charges reduce the potential growth of your investment.

The entry charge shown is a maximum figure. In some cases you might pay less.

As the Fund has not had a full year of performance, the ongoing charges figure is an estimated figure.

This figure may vary from year to year. It excludes:

- Performance Fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another fund.

The maximum Switch Fee payable for each switch is half the Entry Fee applicable to new units.

For more information on charges and in particular the performance fees, please see the Class Information Cards in the Prospectus.

One-Off charges taken before or after you invest:	
Entry charge	Up to 3.00%
Exit charge	None
This is the maximum that might be taken out of your money before it is invested.	
Charges taken from the Sub-Fund over a year:	
Ongoing charge	2.76%
Charges taken from the Sub-Fund under certain specific conditions:	
Performance Fee	Maximum fee is 1% annually, calculated as 20% of the increase of the net asset value in excess of the High-Water-Mark plus a hurdle rate of 5%.
Actual performance fee	0.00%

Past Performance

Please note there is not a complete calendar year performance available for this Share Class.

- The Sub-Fund, including LHA Class, was launched in 2021.
